

Integrated Planning 2.0

Software to modernize how government agencies prioritize, plan, and fund.

Modernize your Organization

Connect Data Silos. Connect processes for a standardized and comprehensive data-driven approach across the organization.

Align Strategy. A proven methodology to establish criteria, prioritize, and fund efforts aligned to the mission.

Maximize Resources. Get the most of every taxpayer dollar with recommended portfolio optimization strategies.

Budget Certainty. Overcome short sighted planning to better adapt to budget changes that promote long-term strategy success.

Flexible Reporting. Real-time scenario planning provides insights, outlines alternative courses of action and a 360-degree view.

Win the Future

Connect your organization's long, medium, and short-range planning across offices, departments, and functions.

Programming & Budgeting

Operationalize resources with automated processes, stakeholder collaboration, and full auditability.

Workforce Optimization

Align workforce for project complexity, risk and mission requirements to maximize output.

Mission Prioritization

Invest in projects which are most impactful and aligned to your mission.

Science & Technology

Develop high impact capabilities with a more efficient evaluation and funding process.

Decision Lens is changing our way of doing business. It's all about automating and streamlining the processes. By the end of this year, we estimate time savings to our existing process of up to 40% due to Decision Lens, with additional projected savings in the future as we continue to evolve and improve.

- Eve Hohn, Comptroller, 452nd Wing

The Result

Alternative Courses of Action (COA). Create an agile workflow which can dynamically adapt to meet changing requirements and priorities.

Ongoing Mission Alignment. Ensure every dollar is spent preparing for the future by developing emergent capabilities needed for today.

Enterprise-wide Defensibility. See agency-wide impact of high-level decisions and how the organizations as a whole is aligning to mission needs.

Eradicate Knowledge Gaps. Understand why historical decisions were made through data traceability that ensures continuity of planning and execution.

Designed for the Public Sector

Security

FedRAMP, IL-2 Compliant, IL- 4/5 Ready

Flexible Contracting Options

SBIR, NASA SEWP, 8(a), GSA, and Other Agency-Specific Vehicles

Hosting Options

AWS GovCloud SaaS, Agency-Networks (NIPR, SIPR, JWICS), Self-Hosted

SBIR Award Winning Software

Decision Lens Clients

Let's get started.

We have been modernizing public sector planning for 15+ years, evolving our solution to meet the needs of today while delivering the cutting-edge capabilities of tomorrow.
