

Financial Management 2.0

Software to ensure money is effectively operationalized to best defend your resources and justify your budgets.

A Modern POM Solution

Organize Data for Action. Overcome data gaps, structure your data consistently and connect disparate systems

Automate Requirements Collection. Reduce requirements collection, errors, and meetings with a single dynamic process

Prioritize Collaboratively. Collect the tacit knowledge of all SMEs to deeply evaluate available options.

Rapidly Analyze Results. Powerful visualizations simplify real-time data analysis allowing for dynamic changes.

Gain a Command-level view. Leadership can easily assess and compare requests from across their command utilizing a consistent scoring criteria.

Plan the future, sustain today

Connect and automate your POM process for the clarity and efficiency required to deploy limited resources to meet your mission most effectively.

Connected POM Planning

Modernize for the future while maintaining today with full visibility into execution and outcome of funding

Structured Budget Formulation

Manage pre-decisional data to formulate a more responsive budget

Dynamic Spend Plans & Obligation Tracking

Ensure spending is executed toward the highest priority

Automated UFR Prioritization

More efficiently collect, rank, and prioritize unfunded requirements

Decision Lens ensures projects of the highest relative merit are consistently programmed, budgeted and executed first.

Vice Admiral Adam M. Robinson, USN, MC Surgeon General of the Navy

The Result

Alternative Courses of Action. Dynamically incorporate feedback from leadership and rapidly develop alternative courses of action

Ongoing Mission Alignment. Ensure every dollar is spent preparing for the future by developing emergent capabilities

Budget Justification. Defend existing allocations to ensure funding is not withdrawn.

Access Additional Funds. Proactive financial management improves the opportunity to be eligible for additional funds.
