

Science & Technology Innovation 2.0

Software to modernize continuous portfolio decision support.

Modernize your Innovation Lifecycle

Organize Data for Action with our proven methodology to establish criteria, prioritize, and fund efforts aligned to the mission.

Turbocharged Requirements Intake using custom forms to collect, organize, and prioritize requests with direct input into a structured data model.

Connect Organizational Silos by aligning processes for a standard and comprehensive data-driven approach across the enterprise.

Optimize for Every Scenario by leveraging AI-trained to find and recommend options based on your desired outcome

Flexible Reporting allows leadership to easily assess and compare requests from across their organization utilizing a consistent and transparent scoring criterion.

A Data Driven Process.

Develop high impact capabilities with a more efficient evaluation and funding process.

Intake

Reduce requirements collection, errors, and meetings with a dynamic process ending in a single data model.

Validate

Guarantee data is correct and meets requirements with a unified data model.

Collaborate

Collect the knowledge of experts to thoroughly evaluate proposals.

Track Status of Funds

Formulate a more responsive budget and ensure spending is executed toward the highest priority.

Decision Lens is changing our way of doing business. It's all about automating and streamlining the processes. By the end of this year, we estimate time savings to our existing process of up to 40% due to Decision Lens, with additional projected savings in the future as we continue to evolve and improve.

- Eve Hohn, Comptroller, 452nd Wing

The Result

Forever Future Ready. Create substantial and sustained investment in transformational capabilities without mortgaging today.

Enterprise-Wide Defensibility. See agency-wide impact of high-level decisions and how organizations as a whole are aligning to mission needs.

Lockstep Mission Alignment. Create a collective line of sight to strategy and tie your resources to the lines of effort that most impact your mission.

Unrivalled Scalability & Speed. Leverage full visibility into requirements, spend to adjust on the fly, and maximize the allocation of resources.
