

# POM Planning 2.0

Software to streamline decision support throughout your multiple POM planning events and time horizons.

## A Modern POM Submission Workflow

**Prioritization Framework.** A standardized, but flexible criteria-based way to drive investment in mission-critical priorities.

**Process Automation.** Reduce reliance on spreadsheets with custom forms to collect, organize, and prioritize requirements.

**Purpose Built Visualizations.** Rapidly visualize courses of action live to reach data-informed prioritization decisions across all POM planning horizons.

**What-If Planning.** Present tradeoffs iteratively to leadership for mission aligned decision making.

**Scenario Planning.** Leverage powerful algorithms and visualizations to provide a quick view into potential courses of action.

**Real-Time Data.** Ensure executive decisions makers are always acting on up to date findings from program managers and portfolio owners.

## Plan for The Future, Sustain Today

### Eliminate Spreadsheets

Automating data input reduces time spent on collection and validation to allow focus on analysis

### Automate POM Prioritization

Identify and fund mission-aligned spending priorities as money becomes available.

### Log All In-App Activities

Track all activities performed in the portfolio, when the changes occurred, and by whom.

### Allocate Funds Faster

Rapidly pivot spending for a get-well plan when spending is off track.

“

*It's very hard for us to make changes, given how inflexible the (POM) process is later in the out years.*

- Raj Iyer - Former Army CIO

## The Result

**Better, Faster Decisions.** A prioritization framework and what-if analysis to improve America's global competitiveness.

**Quantified Mission Alignment.** Create and maintain a collective line of sight to strategy which ties resources to mission aligned initiatives over the POM period.

**Effectively Inform Decisions.** Develop robust decision justification with our prioritization framework coupled with what-if analysis capabilities.

**Optimized Funding.** Create alignment between requirements, resources, and desired mission outcomes.

## Built for the Public Sector

### Security

FedRAMP, IL-2 Compliant AWS Hosting, IL-4/5 on Air Force Cloud One

### Hosting Options

AWS GovCloud SaaS, Agency-Networks (NIPR, SIPR, JWICS), Advana, Self-Hosted

### Flexible Contracting Options

SBIR, NASA SEWP, 8(a), GSA, and Other Agency-Specific Vehicles

## Decision Lens Customers

## Let's get started.

We have been improving public sector planning for 15+ years, modernizing how government prioritizes, plans, and funds.
