

Next Gen Performance Based Planning & Programming

Software for putting performance metrics at the forefront of your decision-making process.

Modern Transportation Planning

Comply with federal and state requirements.

Transparent auditability and real-time reporting ensure ongoing compliance.

Performance-based decision making.

Understand every decisions' impact to performance and receive recommendations along the way.

Assess the impact of tradeoffs. Quickly see the impacts of your scheduling decisions and compare scenarios.

An efficient, repeatable planning process.

Establish a transparent process easily communicated to stakeholders and leadership.

Built to scale. Software designed to meet all your department's planning needs and updated to meet changing reporting and regulatory requirements.

Optimize budget. Automatically identify potential financial constraints and receive recommendations on how to eliminate them.

Plan to Perform Better Tomorrow

Performance-Aligned Project Prioritization

Identify and fund mission-aligned spending priorities as money becomes available.

Scenario Plan Mid & Long-Range Futures

Leverages artificial intelligence to provide suggestions on improving outputs

Purpose-Built Reporting

Quickly assess the the impacts of your programming options against your objectives.

Log All In-App Activities

Track projects through their life cycle. Document schedule and budget changes.

“PBPP is helping States DOTs and MPOs to coordinate planning activities, make more informed investment decisions, and communicate performance-related data and information.”

- United States Department of Transportation

The Result

Efficient, Impactful Reporting. From TAMP to TIP to other reporting, having all your decision data in one system makes report creation fast.

Maintain Compliance. Transparent auditability and real-time reporting ensure ongoing compliance with changing regulations.

Improved Mid and Long-Range Planning. Effectively balance between focusing on the future while sustaining the needs of today.

Better, Faster Decisions. A prioritization framework and what-if analysis to deliver expected services to your citizens.

Aligned Project Investment. Develop robust decision justification with our prioritization framework and scenario planning capabilities.

Built for Transportation Agencies

Security

Designed for hybrid workforces, StateRAMP, GovCloud support

Flexible Contracting Options

Experience contracting with 30+ states, state & local partners

Dedicated Success Team

Custom live training, On demand courses, Experienced personnel

Decision Lens Customers

Let's get started.

We have been modernizing public sector planning for 15+ years, evolving our solution to meet the needs of today while delivering the cutting-edge capabilities of tomorrow.
